- Phone call time: about 3.5 hours
- Standby time: about 80 hours
- Charging case charging time: about 1 hour
- Earphones charging time: about 1 hour
- Charging box input: 5V/1A
- Charging case battery capacity: 450mah
- Earbud battery capacity: 50mah

### HOW TO WEAR

#### Earbuds wearing diagram

1. Choose a suitable ear cap fitting size - S, M or L.
2. Put the earbud into your ear
3. Rotate individual earbuds into a comfortable position within your ears.
4. Insert the earhook into the ear

Note: Press earbud into the ear canal and make sure the ear hook fitting locks in securely within your ear structure.

With extra ear hooks and ear tips, you can select the correct size to ensure a comfortable ear fitment and better user experience.

### PRODUCT OVERVIEW

### LED LIGHT STATUS

- a). When the right earbud LED light flashes red and blue and the left earbud LED light flashes blue, the two earbuds have paired successfully with each other.
- b). Both earbuds have connected with your phone when the LED lights of each earbud flash blue every 5 seconds.
- c). When the earbud or charging case LED lights flash red the respective battery charge is low.

### Power On

1. Auto Power On: Both earbuds will power on automatically when removed from the charging case.
2. Manual Power On: Press the buttons of the earbuds for at least 2 seconds until the LED indicator turns blue (in circumstances where the earbuds are turned off and are not in the charging case).

### Power Off

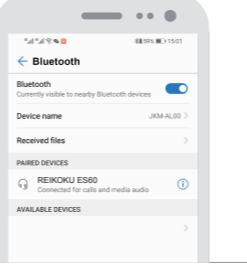

1. Auto Power Off: Both earbuds will power off automatically when placed back into the charging case.
  2. Manual Power Off: Press and hold either earbud button for more than 5 seconds until the LED lights turns red.
- Note: When you are listening to music, please pause the music before attempting to turn the power off.

### PAIRING EARBUDS TO YOUR PHONE

When pairing for the first time, place both earbuds into the charging case for at least 2 seconds and then remove them again. Both the left and right earbuds will automatically power on and commence pairing with each other. After 5 seconds the right earbud LED indicator will flash alternately between red and blue while the left earbud LED indicator will flash blue.

Turn on the bluetooth function of your phone and search for the bluetooth device named "REIKOKU ES60". Click to connect. Both earbuds are connected with your phone when the LED lights of each earbud flash blue every 5 seconds.

When removed from the charging case the earbuds will automatically attempt to connect with the last phone they were connected with.

### Making and Answering Calls

Answer call	Press either earbud button once.
End call	Press either earbud button once.
Redial last number	Press either earbud button twice.
Reject call	Press either earbud button for 2 seconds when there is an incoming call.

During a call, the volume is adjustable via your phones volume control settings.

### Listening to music

Pause Music	Press either earbud button once.
Play Music	Press either earbud button once.
Forward	Press either earbud button twice.
Backward	Press either earbud button three times.
Activate/Stop Siri	Press either earbud button for 2 seconds.
Increase Volume:	Press and hold either earbud button continuously. You will hear a ticking sound as the volume increases and reaches the maximum volume.
Reduce Volume:	Once the maximum volume has been reached, press and hold either earbud button continuously. You will hear a ticking sound as the volume level reduces.

### CHARGING THE EARBUDS

1. Place both earbuds into the charging case.
2. The earbud LED indicators are red when charging.
3. The earbud LED indicators turn to blue before turning off when fully charged.

### CHARGING THE CHARGING CASE

1. Please charge the box with DC 5V/1A output charger, such as computer USB or other USB interface charger (please use approved charger).
2. Four blue LED lights will appear on the charging case when fully charged. Disconnect the charging case from the power supply.

Note: The earbuds (when correctly connected inside the charging case) can be charged at the same time when recharging the charging case.

### ATTENTION

1. Keep the charging case and earbuds away from Wifi routers and other bluetooth devices to avoid potential signal interference.
2. Operate the earbuds within a 10 metres range (barrier free environment) of the phone they are connected with.
3. It is recommended that you listen to music that has been downloaded to your phone. The quality of streamed music may be affected by poor quality phone reception to your service provider.
4. Do not pull apart / attempt to open the earbud casings or charging case for any reason. The potential exists for risk of damage, burns or electric shock. The manufacturer's warranty is void if this is attempted.
5. Do not expose the earbuds to temperatures below 0 degrees or above 45 degrees.
6. To prevent the risk of electric shock do not use the earbuds during thunderstorm weather conditions in your vicinity.
7. Both the charging case and individual earbuds contain lithium batteries. Do not expose the lithium batteries to

### FAQ

- 1. The earbuds do not charge**  
Please check that the charging case has adequate power charge.  
Clean the charging pins inside the charging case with a dry paper towel or cloth.  
Ensure the earbuds are properly seated and making correct contact with the charging pins in the charging case.
- 2. Do the earbuds work independently of each other?**  
The earbuds can operate in Single or Dual Earbud Mode. For Single Earbud Mode remove one of the earbuds from the charging case and connect with your phone through the bluetooth setting function - search for REIKOKU ES60 and connect. To change to Dual Earbud Mode you will need to disconnect the single earbud from the phone. Place both earbuds into the charging case for at least two seconds before removing and reconnecting with your phone.
- 3. The earbuds are not pairing at the same time?**  
Single Earbud Mode is functioning. Disconnect the earbud from your phones bluetooth setting and place both earbuds back into the charging case for at least 2 seconds. Remove the earbuds from the charging case and reconnect with your phone.
- 4. Question: The earbud language is not set to "english"?**  
Disconnect the earbuds from your phones bluetooth setting and place both earbuds back into the charging case for at least 2 seconds. Remove the right earbud from the charging case and press it's button twice in rapid succession to change the language setting to suit.
